BOUNDARY FIRST

A map answer. The right place?

An impressive answer can still depend on the boundary you chose.

CHECK THE QUESTION.

ADD THE DATE

Map questions need several layers.

Our fictional example combines a boundary, a date and a data layer.

A PIN IS NOT AN AREA

A pin is not the whole area.

Our illustration uses a made-up site. It is not a property assessment, real forecast or risk map.

SAVE THIS

BEFORE YOU DECIDE.

01 WHICH BOUNDARY?

02 WHICH DATE?

03 WHICH SOURCE + ASSUMPTIONS?

Which boundary? Which date? Which source and assumptions?
Keep unsupported conclusions open.
